Drum

Product Description Imported - Quality above the Market. We can also Provide Liquid Ready Formulation and Dose set as per your requirement

SILICON BASED SPREADER

50ltr

HDPE Drum

Product Description Agricultural Solutions

Our agro solutions are rich with specialty non-ionic surfactants, uniquely crafted for advanced agricultural applications. Elevate the delivery and efficacy of numerous pesticide products with our silicones, renowned as tank mix adjuvants, in-can adjuvants, and superior foam control agents. Experience enhanced spreadability, robust rain fastness, and effective penetration.

There are very less options available in the market when we talk about choosing the best silicone for the agriculture industry. Our silicone products for agriculture are manufactured to nourish and strengthen the plants on which the product is sprayed. Under agriculture, we also have adjuvants and antifoam silicone products.

We have 5 exclusive silicone products in this domain which are listed on the website. If you plan to order a sample from us, we recommend that you go through the exclusive product list. Each of these silicone products has its own shelf life, usage instructions, and properties. These products are made from non-harmful substances; hence, they will not hamper the growth of the plant.
